

PROFESSIONAL SUMMARY

I'm a Senior Big data professional. Interested in solving problems faced during integrating large-scale distributed systems, Concurrent programming, & Designing low-latency Systems and currently working on distributed systems and Real-time data computation, streaming, and processing. Have good hands-on with Python, Java, Scala, and Go. I'm an open-source enthusiast and contributor. I have experience with big data frameworks such as Kafka, Apache Spark, Apache NIFI, Apache Hadoop, and Apache Flink, and I have experience in distributed SQL and data warehousing systems, and a strong problem-solving mindset led to a \$600k annual savings through optimised data storage.

SKILLS

- Apache Spark
 - AWS
 - Docker
 - Shell Script
 - Github
 - MySQL / PostgreSQL / Oracle
 - Scala
 - SQL
- Apache Kafka
 - Delta Lake (Delta.io)
 - Kubernetes
 - Apache H Base
 - Teradata
 - Snowflake
 - Python
- Apache NIFI & NIFI Registry
 - Dremio
 - Fabric8 (Kubernetes Java SDK)
 - Apache Flink
 - Informatica
 - Java
 - Go

EXPERIENCE

Senior Big Data Engineer

August 2023 - Current

Pokerstars | Hyderabad, India

- Working as a member of the RAPID team which is in charge of providing in-house solutions and services to other departments in support of their real-time data needs and responsible for gathering information from processing and monitoring real-time activity in the Stars Group Poker game ecosystem via real-time big data technology.
- Part of the Migration team from on-prem to AWS ecosystem. Enhanced data quality by developing robust validation strategies to identify and correct inconsistencies.
- Optimized the data storage and retrieval in DynamoDB which the help Kryo Serialization technique which resulted in saving of 600k \$ per year.
- Part of the open source contribution to Alibaba Fluss, it is a streaming storage built for real-time analytics.
- **TECH STACK:** Java, Apache Flink, Apache Spark, Apache Kafka, Docker, AWS DynamoDB, Delta lake, Apache Paimon, Kubernetes, Restful API's, Athena, Jenkins, PostgreSQL, Grafana, AWS lambda, Data Warehousing, Git, Maven.

Senior Data Engineer

April 2023 - August 2023

Experian PLC | Hyderabad, India

- Worked on Ascend Intelligence Service (AIS), which is a Global Analytics product a Backend and Senior Data engineer, intended to support the end-to-end modelling needs of clients from loan originations to collections.
- Successfully shipped the product and was part of the compute cluster mapping algorithm.
- **TECH STACK :** Java, Scala, Spring Boot, Apache Spark, Apache Kafka, Hadoop, Hive, Apache Flink, HDFS, Docker, AWS, Delta Lake (Delta.io), Kubernetes, Restful API, Jenkins.

Member Technical Staff

July 2021 - March 2023

Model N | Hyderabad, India

- Worked on SAAS Product team the data movement across platforms using the event streaming (Apache Kafka) and processing the obtained data using Data processing framework (Apache Spark) through which ACID transactions on Delta lake (Delta.io) can be: possible with live and interactive query using lake engine (Dremio) within the ecosystem using the Rest API calls (Spring boot).
- Wrote custom Vacuum (background task runner to merge the small file issue)
- **TECH STACK :** Java, Spring Boot, Apache Kafka, Apache Spark, Apache Hadoop, Apache Hive, NIFI, AWS, Prometheus, Delta lake, Scala, Dremio, Temporal, Docker, Kubernetes, Flyway, Fabric8, GitHub, GCP, Google Big Query.

Software Engineer

August 2020 - June 2021

Carelon Global Solutions | Hyderabad, India

- Worked on Medicare and Medicaid initiative to have clinical intervention data, core administrative data (Members, claims, provider data), CMS oriented from different data warehouse to Aggregate and perform insights so that they can maximize Medicare revenue and reduce Medicaid administrative costs.
- TECH STACK Scala, Java, Python, Shell Script, SQL, Apache Kafka, Apache Spark, Apache Hadoop, Apache Hive, Apache Airflow, Apache NIFI, AWS, Apache HBase, Apache Sqoop, GitHub, Google Big Query, GCP.

Associate Software Engineer

August 2018 - July 2020

Legato Health Technologies | Hyderabad, India

- Performed ETL using Teradata and ETL Tool Informatica for reducing Medicare Administrative costs.
- TECH STACK Python, Scala, Shell Script, SQL, Teradata, Informatica, Bit bucket, GCP, Google Big Query, Apache Airflow.

EDUCATION

Bachelor of Engineering - Electrical and Electronics Engineering

05/2018

Mahatma Gandhi Institute of Technology, Hyderabad, India

WEBSITE, PORTFOLIO AND PROFILES

- <https://www.linkedin.com/in/rohan-kumar-dubey-3a9a31156/>
- <https://github.com/rohankumardubey>

CERTIFICATIONS

- Apache Kafka Essentials
- Scala
- Java 11 Essentials
- JMeter (performance and load testing)
- Artificial Intelligence (IBM)
- Cloud Computing (LinkedIn)
